Profile

Hello, My name is Fidel Masitsa. I have been building web applications using Python and Javascript for the past three years. I also write about Backend Development and DevOps on Twitter and LinkedIn. Here is more about me, projects I have worked for various clients and my tech stack .

Education

Bachelor of Science in Information Technology, Mt. Kenya University 09/2020 – 04/2023
Thika, Kenya

Projects

Bestmaids Kenya, A web-application for maids to apply for jobs and connect with potential employers online 01/2023 – present

This is a SaaS start-up built using Django and Javascript in the frontend, powered with DevOps methodologies, allows maids to connect with potential employers. Has features like user authentication, profile creation, payment method between employers and maids, maids application to jobs and more that is still being added in the project. The project is already in production hosted in Python Anywhere.

Social Media Platform, 05/2023 – 05/2023
A social media platform for teens and University students to Interact
A social media platform for university students built using django and html/css. Users log into the platform, and are able to post about the day to day activities of their lives in campus.

The Difference Community (USA), 04/2023 – 05/2023
This is a screening platform for a US based leadership platform
Built using Python and Javascript , this is a screening platform for the difference ,that authenticates reputable US leaders into the system. Users register with information about their past achievements and lives in general, and the data is counterchecked with that available in Postgresql, and hence user is allowed into the platform incase the comparison is correct

Himapay Kenya, A Paas Platform for payment integrations 03/2023 – 04/2023
Designed the frontend using Html,css and javascript

Star Airbnb Platform, A SaaS that helps users to locate Airbnb hotels near them 01/2023 – 02/2023
Developed the frontend using html,css, javascript and JQuery. Also Integrated the payment method in Paypal
